LEOPARDSTOWN MEETING -THIS DAY.

There is promise of excellent sport on both days at Leopardstown, and, no doubt, the occasion will be largely availed of by the numerous nilitary men home on well-earned leave from the front. It is to be hoped, therefore, that the weather will be of a favourable character, and, should all be well in this respect, the re-union ought to prove very success-There is promise of excellent sport on both character, and, should all be well in this respect, the re-union ought to prove very successful. The programme is a good one, and though none of the English-trained entrants have been sent across fields will be of nice strength. The two "regulation" fences have been rebuilt, while the others have been greatly improved, and other alterations in the right direction carried out by Mr. Harold Clarke, who works so hard in the interests of the meeting. Selections for the opening afternoon:—

TAKE ADVANTAGE OF THE FINE WEATHER

It is a well-known fact that land ploughed now will produce more than land ploughed in

the Spring; but has it ever occurred to you that the gain in production on a hundred acres would actually pay for a Farm Tractor in the first season? But in addition to that

Therefore, in buying a Farm Tractor and ploughing all the land you can NOW, on the red minute,

you are not only doing a patriotic duty, but you are helping your own pocket as well. When it comes to cultivating and sowing the Tractor is even more your friend than in ploughing, because you can

and sow when opportunity offers. From every point of view the Tractor, if you buy the right one,

will be the best investment you ever made. It will plough, harrow, disc, cultivate, sow, mow, reap and

open drills. We can even supply you with a Tractor to dig potatoes. It will drive threshers, grinding mills, bruisers, pulpers, chaff-cutters, circular saws, stone-crushers, pumps, dynamos, &c.
